**We Design, Manufacture, Customise
based on the requirements by following
strict standards using high quality raw-
materials and machinearies**

Enhancing safer environments and prevent incidents

Garuda Signs™ brings over four decades of expertise in the signage industry, establishing itself as a leading manufacturer of high-quality safety signs. Our success is driven by an extensive product portfolio, superior material durability, and competitive pricing.

As an authorized 3M Converter, we serve as an Original Equipment (OE) vendor for several renowned national and international brands. We prioritize the use of premium raw materials, including 3M adhesives, Lexan films, and Sericol inks, ensuring exceptional product quality and longevity.

Our core focus is on the B2B segment, catering to the signage needs of dealers and resellers. By working closely with our global team, we continuously develop and implement effective strategies to meet the evolving demands of our customers and the safety industry.

Visual alert to increase safety

Safety Signs serve as silent yet powerful guardians, guiding people towards safer actions and away from potential hazards.

Safety signs are more than just warnings—they are critical tools for protecting lives, ensuring compliance, and fostering a culture of safety. Designed to communicate clearly and universally. They transcend language barriers, delivering vital information at a glance.

Garuda Signs™ vision

Garuda Signs™ plays a critical role and vision in safeguarding individuals and assets in various environments including workplaces, public spaces, construction sites, factories, hospitals, schools, institutions, laboratories, amusement etc

Vision Statements

Promoting public safety

Compliance with legal requirements

Improved awareness and communication

SAFETY FIRST SIGNS MUST

Category of safety signs

Caution Signs indicates a hazardous situation which, if not avoided, could result in minor or moderate injury.

Notice Signs indicates information considered important but not directly hazard related.

Danger Signs indicates a hazardous situation which, if not avoided, will result in serious injury or death. It's use should be limited to the most extreme situations.

Warning Signs indicates a hazardous situation which, if not avoided, could result in serious injury or death.

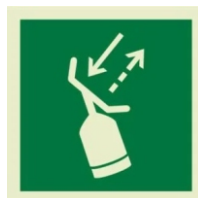

Safety Instruction Signs provides explanatory information predominantly used in signal word panel.

Safety Graphical Symbols are used to bridge language barriers and draw attention to the safety message.

Prohibition Signs indicates that certain behavior is prohibited as it is likely to increase or cause danger.

IMO Safety Signs are standardized symbols used aboard ships and in maritime facilities to ensure safety and compliance with global regulations.

Mandatory Signs indicates actions that must be carried out to ensure safety and compliance.
